

What Our Class of 2024 Has to Say

“As an eighth grader, it is hard to leave this school. The school's community is very supportive and caring. All of the students can grow close during their time at SJCS. I enjoyed my time here with the faculty and my classmates.”

“St. John the Evangelist Catholic School is one of the best schools you could ever go to. The teachers and faculty are so kind and involved with all the students. The grading level is harsher, but this helps us excel. The size of our classes is small, so we are a family. The memories I have made here are so amazing, and I will miss this school dearly.”

“At St. John, there is so much love from the teachers because they care about you. Another thing with St. John is that they give you amazing knowledge about Christianity.. The SJCS students are also kind and loving it is super easy to make friends here. Everyone at St. John will fit in. My parents sent me here when I was in Kindergarten. They say they sent me to St. John because they wanted me to have a really good education, unlike the education you would receive at a public school. The teachers make sure that you keep up with what you are learning during class, and that nobody falls behind. If you are looking for a school, St. John is an amazing choice”

“Thanks to St. John I have good study habits that will help me for the rest of my life. St John has helped me so much to be not only a better student but also a better person.”

“Since I arrived at St John the Evangelist Catholic School, the first sensation was security and welcome. This school is incredible, the people, teachers, and directors, are very good people. What I like most about school is that everyone follows the model of Christ. I recommend coming to this school because here you can feel safe and happy. This school has everything, you can learn new languages and you even have a classroom where there is a lot of technology and you can build whatever your mind and body want.”

“In the future, I will always remember the skills and habits that I have learned in my classes. All of the teachers here are very loving and hardworking.”

“My message could have gone to all the teachers who helped me from preschool to eighth grade here at St. John Catholic School but I had to pick one of the many teachers who impacted me the most. I would like to thank Mr. Mclendon for everything he has taught me over the past years. One thing I have learned from him and the rest of the teachers at St. John Catholic School is that one will always get the chance to be a formidable student through their actions and performances. This message is one of opportunity, to always make use of the many opportunities given to you in life. My St. John teachers and especially Mr. Mclendon, helped me with the fundamentals of being a proper student. So to Mr. Mclendon in particular, I want to say thank you, and to all students, my advice is to always remember to take advantage of the opportunities extended to you by your teachers.”
